# THE WAY IT WORKS

### TAILORMADE

Individual colour and design requirements are a Multi Color Impression specialty. The text and logo fields can be arranged as required.

### **PRECISION**

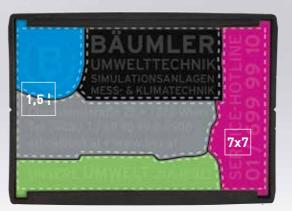

The laser cuts the ink cartridge with precision and seals the colour fields at the same time. This prevents the contamination of each of the individual colour fields.

### QUALITY

The result is a set of clean impressions to the usual Trodat level of quality.\* \*Cartridges can also be inked manually.

\*ECO black and ECO grey. Lower percentage for other colours.

# WE ASKED STAMP USERS

We asked users what, in their opinion, makes a good stamp. There were some interesting responses. Thus we incorporated these ideas when we developed the Original Trodat Printy 4.0.

1. Clean replacement of ink cartridge thanks to special grip zone

2. Exact placement of impressions thanks to the panoramic viewing

3. Lightweight & small, perfect when you are on the move

4. The usage of Trodat materials in combination is guaranteed to have a high-quality impression.

# WE ASKED RUBBER STAMP MAKERS

Numerous surveys with rubber stamp makers were carried out to identify what they expect from the ideal stamp. The valuable results have had a significant impact on the development of the Original Trodat Printy 4.0.

1. Simple mounting of text plates thanks to the raised position of the text plate holder

2. Easy to customise! Countless options for your logos and individual prints on the stamp housing

3. Multi-color impressions help to meet your customers demand for differentiation and individuality

4. Convenient detachable index window which is symmetrical with a large grip

# TRODAT PREMIUM FLASH

With Trodat's Pre-inked Flash lines you get thousands of crisp and clear impressions, whether you use bold logos or fine lines. In addition they can be re-inked easily for thousands more.

Pre-inked stamps are very popular for large impressions, because the housing of the stamps is relatively small even for stamps with a large imprint area. All Trodat Premium Flash models promote dry cartridge inking concepts for efficient inventory management.

### WHAT ARE THE BENEFITS OF MAXLIGHT S-STYLE. PSI E-STYLE AND SUPER SLIM?

### Improved Die Box:

Cutting and sealing of foam is done by new laser technology. Therefore no space is wasted, resulting in a larger impression area.

Trodat Flash Machine:

Quick & easy operation not only foam, but whole die box can be flashed at once.

Convenient Inking:

Fast & clean – no accessory or scale needed. The patented dry cartridge concept allows high inventory flexibility. Trodat Premium Ink migrates under 1h.

1-Step Assembly Maxlight:

The snap-in die box provides the simplest assembling possible.

1-Step Assembly PSI:

The slide-in die box provides the simplest assembling possible.

No Assembling Steps Super Slim:

Super Slim can be flashed and inked as a whole – no extra die box needed. Only the index card needs to be added as always.

For ordering and delivery of these products, please contact your Trodat sales consultant.

### **IDEAL VELLUM A4**

The Trodat Ideal Vellum is used for printing artworks and is designed for monochrome (black & white) laser printers.

Available in A4 size: 210mm x 297mm

# ULTIMARK PROTECTIVE FILM

The clear Trodat Ultimark Protective Film is placed on top of the printed vellum and is necessary for proper exposing results (prevents that toner from a printed vellum is transferred onto the foam).

Available in pre-cut size: 124mm x 114mm

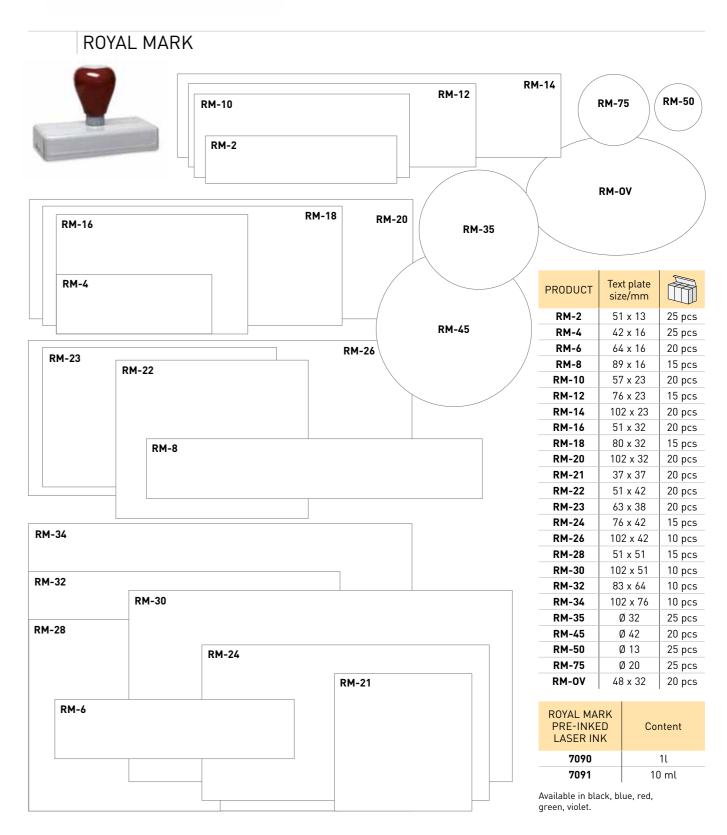

# TRODAT ROYAL MARK

The text plate for this pre-inked stamp is produced by laser. It is then filled with ink, so that no separate ink pad is required.

For production use microporous laserfoam (p.95).

# TRODAT CLASSIC

The models within the Trodat Classic line are true perennials. They are available in various sizes. Whether you require the stamp to feature a date, number, text or the time, you will find the perfect traditional stamp to fit your needs.

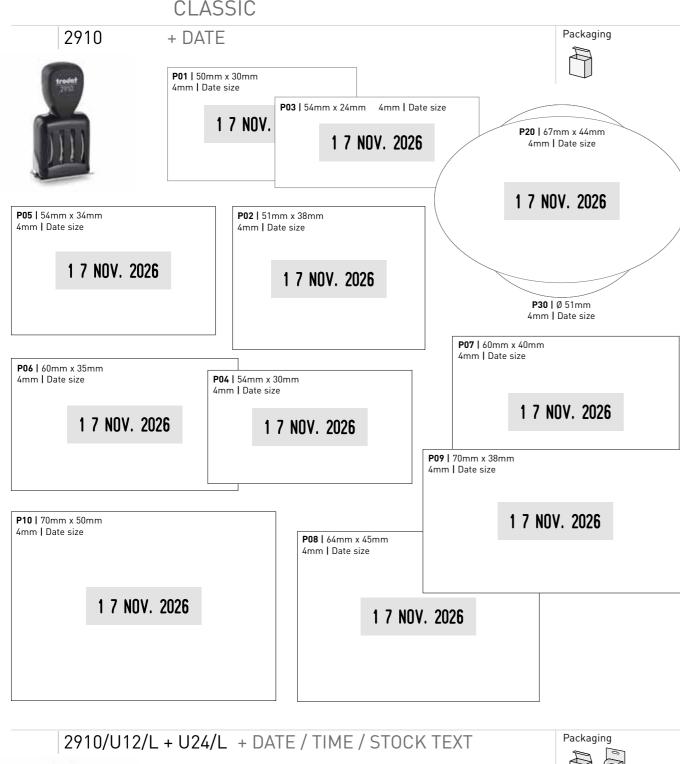

Our Classic line is now black. The design reflects the modern, dynamic workplace and is a seamless addition to the existing Professional 4.0 and Printy 4.0 models.

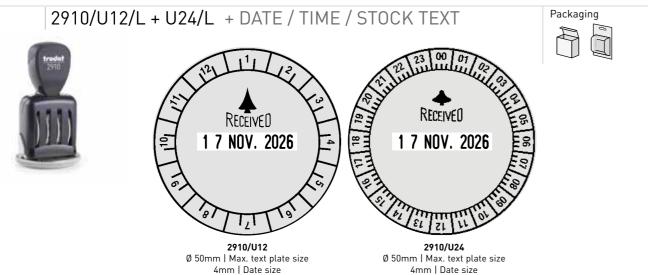

These hand stamps require a separate ink pad.
